

OPTIONS

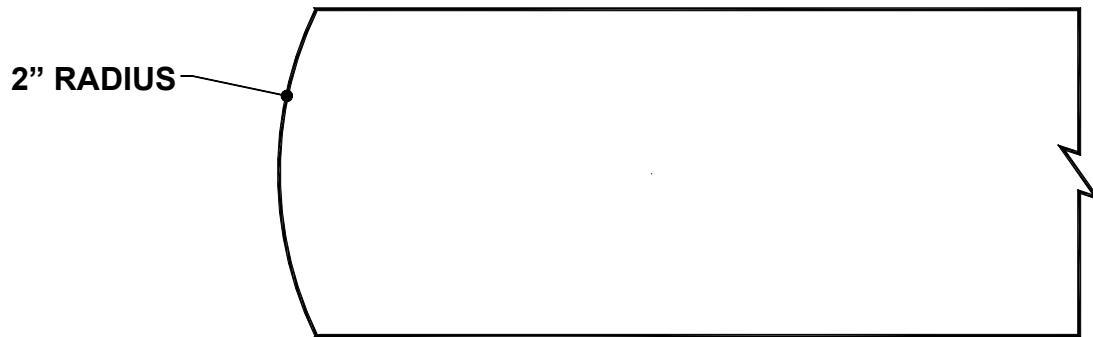

In producing Stile & Rail Doors, a wide variety of options are necessary to accommodate different hardware and job site requirements. Harring Doors is capable of manufacturing any standard or custom detail required for your project. Some examples of standard options available are:

- Radius edges (pivot hardware)
- Rabbetted stiles for pairs
- Rabbetted top rail and transom rail
- Dutch door
- Dutch door shelf with supports
- Matching wood astragal
- Custom lite beads
- Exterior flashing (top rail)

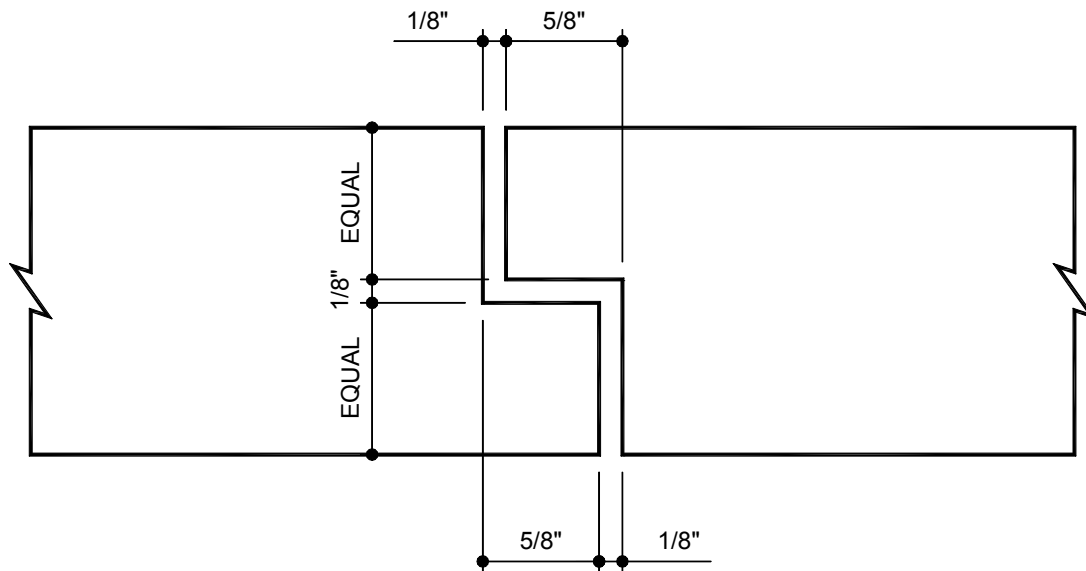

If your project has a detail that is not mentioned above, or is a variation of one of these, please fax a detail to our customer service department for evaluation
